

TOGGLE

Article No. 642.43.727

Toggle is a robust easy-to-use fold-away table and panel connector that provides alignment and a positive connection. *Toggle* folds out of the way when not in use, and is magnetically stored in a low-profile unobtrusive position.

Toggle clamps and aligns surfaces both horizontally and vertically.

The card packaging is also the drilling template.

Product details

DUO HOOK

Article No. 631.09.310

This clever little cable- and wire-management hook is easy to install and simple to re-position. Place it anywhere along a machined slot in the underside of a desk or table, and with a quarter turn lock it firmly in place. A quarter turn in the opposite direction unlocks the hook, allowing you to slide it along the slot to a new position. Provides a simple and re-configurable way to keep wires tidy.
